shunts! This is one of the most modern and up-to-date technology lasers on the market! After using Fogiutte Pro, for the very first time, you will understand how quickly you can get rid of unwanted hairs at home and what kind of skin can really be smooth. It is one of the most modern hair removal lasers in the world, using the Fogiutte Pro laser to achieve a cabin-level procedure at home. Fogiutte Pro is equipped with the most advanced cold hair removal technology. Compared to any other laser on the market, the heat level is always lower, so the procedure is completely painless, and 500000 light flashes will ensure that you can use this laser for life! Already after 2-3 procedures, you will see an extremely significant decrease in hairs. And after weeks, for many, the hairs stop growing.

#### Smart skin color recognition

Designed to adapt to the skin, Fogiutte Pro automatically determines the skin tone, even if sunbathing changes the color of your skin, Fogiutte Pro selects the most suitable light intensity setting specifically for your skin.

#### Smart skin setting

Fogiutte Pro includes 3 magnetic heads of different sizes adapted for comfortable access to all parts of the body, including both the bikini and the face. The laser head is also conveniently adjustable, it can be directed at an angle that suits you. The laser can be used for the whole body, including the face. The most modern double-coating cold plate Fogiutte Pro is equipped with the most advanced cold hair removal technology. Compared to any other laser on the market, the heat level is always lower, so the procedure is completely painless. Sensory-sensitive large LED display You will be able to easily control the Fogiutte Pro laser with your finger. Choose levels, turn on/off the cold technology, and also see how many shunts out of 500000 left. Fogiutte Pro is one of the most shot-bearing lasers. 500000 light shoots will be enough for life!

#### Smart function

Choosing which will not only remove hairs, but also rejuvenate the skin. Selecting this function begins the processes of rejuvenation of the skin. Extremely fast performance of the device When using the Fogiutte Pro laser, after 2-3 treatments, you will see an extremely significant decrease in hairs. And after 7 weeks, for many, the hairs stop growing.

Fogiutte Pro is currently the fastest and most effective hair rem

English

With it, you will easily and comfortably reduce the amount of hairs on the whole body without leaving home, and you will be able to enjoy smooth skin, as if after professional procedures in the salon the skin! And by choosing the smart M function, you will be able to start the processes of skin rejuvenation.
